Various wiring and electronic parts  
marks are hot-stamped on the electronic  
blocks wiring. In order to minimize the  
number of blocks required for each  
experiment, a block may be used only as  
a lead in some cases. (That is, the  
connecting lead of the block is used, but  
not the electronic part in it. ) (Example)  
No. 4 Transistors and Vacuum Tubes

I didn't have 160-in-ONE, only 150-in-ONE! I feel cheated. No wonder my life is only exactly 93.75% of what it could have been. ☹☹ I remember hours and hours putting circuits together. I wish I could recapture that excitement.
