SOLVED: Mouse Settings Reset by itself on Windows 10 ...

Again and again the tiny Duchy of Grand Fenwick, which lies in a fold in the Alps, has saved the world from disaster. As recorded in *The Mouse That Roared*, this little country, three miles wide and five miles long, prevented a nuclear holocaust by declaring war on the United States. Later Peter Sellers was to star in a film re-creating those momentous times.

The Mouse That Saved the West by Leonard Wibberley

A baby mouse should be kept warm - 80-100 degrees Fahrenheit is ideal (you can check this with a thermometer.) Turn a heating pad to its lowest setting and wrap it in a soft, clean towel or rag. Place the heating pad under the box, below the mouse.

3 Ways to Save a Baby Wild Mouse - wikiHow

How to Change Your Mouse Cursor Theme on Windows 10

We've come a long way from the days of the first computer mouse, all the way back in 1964. That clunky roller-based monster was an amazing conceptual advance in user input, but not something anybody would want to use - which is why the first genuinely popular consumer computer mouse didn't come around until the release of the Apple Macintosh twenty years later.

How to Change Your Mouse Speed in Windows 10

Try using basic keyboard shortcuts. You can use your computer's arrow keys and the ↵ Enter key to move the selection around the currently open window and select things, respectively, and typing a letter when on the desktop or in a Windows app (e.g., File Explorer) will cause the selection to jump to an item starting with that letter. There are a few other basic keyboard shortcuts you can use:
