Aviation Handbooks & Manuals

Eventually, the General Aviation Manufacturers Association came to an agreement to standardize the format of AFM's for general aviation airplanes and helicopters. This standardized AFM format is known as the Pilot's Operating Handbook (POH). Unlike the manufacturer-determined order of an AFM, the chapters of a POH will always follow the format of:

Aircraft flight manual - Wikipedia

Cirrus Design Section 2 SR22 Limitations Introduction The limitations included in this Section of the Pilot's Operating Handbook (POH) are approved by the Federal Aviation Administration. This section provides operating limitations, instrument markings and basic placards required by regulation and necessary for the safe operation of the aircraft and its standard systems and equipment.

AFM stands for Aircraft Flight Manual and POH stands for Pilots Operating Handbook. Both the AFM and POH are manuals or handouts for operation of an aircraft. Though these two are considered to be almost the same information regarding an aircraft's operation, they have slight difference between them.
