The Black Death was a plague pandemic which devastated Europe from 1347 to 1352 CE, killing an estimated 25-30 million people. The disease, caused by a bacillus bacteria and carried by fleas on rodents, originated in central Asia and was taken from there to the Crimea by Mongol warriors and traders. The plague entered Europe via Italy, carried by rats on Genoese trading ships sailing from the Black Sea.

Black Death - Ancient History Encyclopedia

History records the Black Death as having begun in the fourteenth century in southern Russian near the Crimea. From here, the disease spread along Far Eastern routes towards Western Europe to the Middle East. The disease progressed along the path of commerce and travel; trading ships arrived at ports with entire crews dead of the disease.
