Modern Losing Trick Count by Ron Klinger - Goodreads

The basic LTC methodology consists of three steps: Step 1: Count losers in one's own hand. The estimated number of losing tricks (LTC) in one's hand is determined by examining each suit and ... Step 2: Estimate losers in partner's hand. Until further information is derived from the bidding, assume ...

Losing-Trick Count - Wikipedia

The Modern Losing Trick Count : Bidding to Win at Bridge. If you want to bid accurately and achieve greatly improved results at the bridge table, you have to master the Losing Trick Count. It is a tried and tested method of hand evaluation which has stood the test of time.

The Modern Losing Trick Count : Ron Klinger : 9780575056503

The normal expectancy for minimum openin gs is 13 -15 points and 7 losers. As strength increases, there are more tricks so fewer losers. 16 -18 points with ordinary shape will usually have 6 losers. As strength decreases, there figure to be fewer tricks. With 10 -12 points and no special shape, ex pect 8 losers.

Losing Trick Count - Palo Alto Bridge

The Losing Trick Count used in conjunctionwith the standard point count, is a method of evaluating the trick taking potential of two combined hands playing in a suit contract. It primarily quantifies the 'shape' of the hand, and is merely a different but more formal way of adding points for length, singletons, or voids.

LOSING TRICK COUNT - BridgeWebs

LTC employs the following math: Count the number of "winners" and "losers" in each of your suits: Each ace and king counts as a winner. This overvalues kings compared to aces, but so be it. Queens count as 0 or 0.5 winners, depending on the holding. A queen supported by another honor card or at ...

Losing Trick Count in Bridge Hand Evaluation and Bidding

Losing Trick Count -A hand evaluation technique originally described by F. Dudley Courtenay's book "The System the Experts Play", and popularized by Ron Klinger in his book "Modern Losing Trick Count", based on counting effective losers in a trump contract. Simply stated, once partnership has identified a 8+ card suit fit (unless the opener has a very strong-long major, e.g., a "self-sustaining suit"), each suit may be evaluated as containing between 0 to 3 losers:

Losing Trick Count: Bridge Hand Evaluation

The Losing Trick Count Counting losers is a sound way of estimating the playing strength of a hand, particularly a hand which contains one or two very long suits. High card points are best to assess the value of a balanced hand, counting losers works better for the more distributional hands.

THE MODERN LOSING TRICK COUNT

1) In a trump contract, always count the trump suit. The best method is not the "fingers method." In other words, don't count "1-2-3-4" for the trick you see in front of you and then add "5-6-7-8-9" adding the 5 trumps in your hand. Instead, just take note of your side's trump fit.

Counting - Bridge Articles - Bridge with Larry Cohen

The Modern Losing Trick Count WHAT IS THE LTC? A way of estimating the number of tricks your side will take in a trump contract. The great advantage is that it is significantly more accurate than point count.
