Three main theories of hypnosis exist: Role theory is when a person is not actually in an alternate state of consciousness, but rather is acting out the role of a hypnotized person. Altered-state theory occurs when a person is actually hypnotized and is therefore in a different, or altered, state of mind.

Altered States of Consciousness | Boundless Psychology

More recently, there have been a number of different theories to explain exactly how hypnosis works. One of the best-known theories is Hilgard's neo-dissociation theory of hypnosis. 10 According to Hilgard, people in a hypnotic state experience a split consciousness in which there are two different streams of mental activity.
